

Ahmed Mohamed Effat

SOC Intern | Junior SOC Analyst

Cairo, Egypt | 01022777950 | ahmedeffat75@gmail.com | linkedin.com/in/ahmed-mohammed-2e2

CAREER OBJECTIVE

Third-year Computer Science student specializing in Cybersecurity, seeking a SOC Intern / Junior SOC Analyst role to apply hands-on skills in security monitoring, log analysis, and incident response, and support a team's Blue Team operations from day one.

EDUCATION

Bachelor's Degree, Computer Science Arab Open University — Faculty of Computer Science | 2023 – Present
Currently in 3rd year, focusing on cybersecurity and network security coursework.

PRACTICAL TRAINING

Cyber Security Incident Response Analyst DEPI (Digital Egypt Pioneers Initiative) | Jul 2026 – Present

- Currently enrolled in ongoing hands-on training focused on incident response and cybersecurity operations.

Network Security Summer Training ITIDA & NTI | Aug 24 – Sep 18, 2025

- Completed 120 hours of intensive training (90 technical, 30 soft skills) covering network security fundamentals and SOC operations.
- Achieved a final score of 98.5%.
- Practiced security monitoring, log analysis, and incident detection & response basics across hands-on lab exercises.

PROJECTS

Network Forensics — PCAP Investigation Independent Lab Project

- Investigated a packet capture (PCAP) using Wireshark, VirusTotal, and the MITRE ATT&CK framework to reconstruct an attack timeline.
- Analysed DNS, HTTP, SMB2, TLS, and TCP stream traffic to identify a payload disguised as an image and recover exfiltrated data from a multipart HTTP POST request.
- Identified indicators of compromise (IOCs), mapped attacker behavior to MITRE ATT&CK techniques, and documented remediation recommendations.

COURSES&CERTIFICATIONS (SELF-STUDY / IN PROGRESS)

- CCNA — Cisco Certified Network Associate (self-study)
- CompTIA Security+ (self-study)
- ELearnSecurity Certified Incident Responder (ECIR) (self-study)
- Certified Ethical Hacker (CEH)
- GIAC Security Operations Certified (GSOC) — SANS SEC450 (self-study)

TECHNICAL SKILLS

Networking: OSI & TCP/IP models, IP addressing & subnetting, VLANs, trunking, STP, EtherChannel, routing (OSPF, ARP), ACLs, NAT/PAT, HSRP/GLBP/VRRP, DNS, HTTP/HTTPS, TLS

SOC & SIEM: Log analysis, alert triage, incident detection&response basics, SIEM concepts (Splunk, ELK Stack, Security Onion)

Security Tools: Wireshark, Nmap, Splunk, ELK, Suricata, Snort, Velociraptor, MISP, Kali Linux, VMware

Threat & Forensics: MITRE ATT&CK, IOC analysis, CVE/CWE/CVSS, threat modelling (STRIDE), PCAP investigation, malware&phishing awareness

Systems & Tools: Windows fundamentals, Linux fundamentals, basic command-line usage, Microsoft Word&Excel

ADDITIONAL ACHIEVEMENTS

- TryHackMe — ranked in the Top 4% of users
- Completed hands-on Packet Tracer labs covering SSH, Syslog, NTP, TACACS+, RADIUS, OSPF authentication, and extended ACLs.

SOFT SKILLS&LANGUAGES

Soft Skills: Analytical thinking, attention to detail, problem-solving, ability to work under pressure, teamwork&communication

Languages: Arabic (Native), English (Good)
